Karthikeyan Umesh

Montreal, QC karthikeyanumesh@gmail.com karthikeyanumesh.com linkedin.com/in/karthikeyanumesh github.com/naraianlegrand

Summary

- Bilingual (English/French) **Software Engineering Master's graduate** (Concordia, May 2026) with hands-on experience across software development, **AWS cloud** deployment, and **data analysis**.
- AWS Certified Cloud Practitioner building with **Java, Python, SQL, and React**, provisioning infrastructure with **Terraform** and **Docker**, and analyzing data with **Pandas and Power BI**; published (Springer) data researcher with a quality-first testing mindset.

Skills

- **Languages**: Java, Python, SQL, JavaScript
- **Software Development**: Spring Boot, React, REST APIs, FastAPI, Play Framework, Object-Oriented Design, Git
- **Cloud & DevOps**: AWS (EC2, S3, Lambda, RDS, IAM, VPC, CloudWatch), Terraform, Docker, CI/CD, Jenkins, Linux, Azure
- **Data & AI**: Pandas, Power BI, Tableau, Advanced Excel, Regression Analysis, Data Pipelines, Gemini LLM Integration
- **Testing & Practices**: Manual & Automated Testing, Selenium, SonarQube, Agile/Scrum, Technical Documentation

Experience

Client Relations & Operations Specialist (Tele Fundraising) **Feb 2026 – Present**
Fundraising Direct *Montreal, QC, Canada (Remote)*
- Manage high-volume, bilingual (English/French) communications in a fast-paced, target-driven environment.
- Analyze daily performance metrics and scheduling data to plan weekly workflows and consistently meet campaign objectives.

Business Development & AI Automation (Part-Time) **Aug 2026 – Present**
Boston Soft Design *Remote (US-based)*
- Qualify prospective clients for CRM and AI-integration services; build AI-assisted automations and analyze business data.

External QA Playtester (Contract) **June 2025**
NetEase Games Montréal *Montreal, QC, Canada*
- Executed structured QA checklists on game builds and workstations, logging reproducible software, hardware, and performance bug reports.

Machine Learning & Automation Intern / Jr. Engineer **March 2023 – April 2024**
Inventeron Technologies and Business Solutions LLP *Bangalore, India*
- Developed automated Python workflows that reduced equipment downtime by **20%**.
- Integrated cloud data pipelines with **Amazon S3**, reducing manual data processing by **30%**.
- Validated data integrity in PostgreSQL/SQL and tested features with automated scripts before client release.

Projects

GenAI-Powered Resume SaaS API — Python, FastAPI, Gemini LLM, React, Docker, AWS **GitHub**
- Built a full-stack application with a React frontend and FastAPI backend that uses Gemini to tailor resumes to job descriptions.
- Containerized the service with Docker for repeatable AWS deployment and validated API behaviour with automated tests.

AWS 3-Tier Cloud Architecture — Terraform, EC2, ALB, RDS, S3, VPC, IAM
- Provisioning a 3-tier AWS environment as code with Terraform, applying least-privilege IAM, VPC subnets, and security groups.

Real-Time Data Platform (TubeLytics) — Java, Play Framework, Akka, REST APIs, SonarQube **GitHub**
- Built a Java backend streaming real-time YouTube API data over WebSockets, validated with automated tests and SonarQube.

Education

Concordia University **May 2024 – May 2026**
Master of Engineering in Software Engineering *Montreal, QC, Canada*

New Horizon College of Engineering **August 2019 – June 2023**
Bachelor of Engineering in Computer Science Engineering *Bangalore, India*

Certifications, Publications & Awards

- **AWS Certified Cloud Practitioner** (Dec 2024) | **AWS Solutions Architect – Associate** (In Progress) | **AWS re/Start** (12-week program, Vinsys)
- Published regression-based pricing research at **ICDSAI 2023** (Springer, Scopus-indexed) | **Best Paper Award**, IFERP International Conference, Goa
- Drove remote fundraising campaigns for the **Red Cross** and **UNHCR** through targeted outreach and effective communication.
